ART GLASS DESIGN

FRAGMENTS COLLECTION

www.studiosilice.com

These lamps are luminous sculptures that elegantly fit into both contemporary and classic-inspired interiors. The main feature of this collection of handmade glass lamps is the creation of infinite shades of colors, putting together many small fragments of glass. The light filtered through the glass of these lamps creates magical reflections. In our studio we cut every single piece of glass and handcraft lamps that are unique in both shape and color.

You can choose the color and shade you prefer, we will be happy to create for you the shade that best suits your environment.

Below are our colour proposals:

SHIPPING

Due to the fragile nature of the works, the shipping process includes careful packing and handling of each item by an experienced shipping partner.

We offer worldwide shipping, although some import and export restrictions may apply.

Shipping costs are determined by the size and weight of the item purchased, as well as the shipping destination and origin of the item. All packaging, handling and insurance costs are included in the shipping cost. The price of shipping will be communicated to you when you place your order. when we have all the necessary details. Insurance depends on the price of your order and is automatically included in the shipping cost.

STUDIOSILICE works mainly with FEDEX and UPS couriers.

When your order is shipped, you will receive a shipment confirmation email with a tracking number. You can check the status of your package and the estimated delivery date online using the tracking number. If you order multiple items, they may be shipped and delivered separately.

Customers outside the EU may be subject to customs duties and taxes when the shipment arrives in their country. Customs and clearance fees are collected by the courier company. Duties and taxes change depending on the country and the products ordered, so we are unable to inform you exactly how much you will pay. By placing your order you agree to customs clearance of the goods.
